Please find nine files which I have done cut and paste from VedaBase and further deleted word to word translations and purports.

WHAT I would like from you is to check that every verse is correctly displayed with sanskrit verse and translation, as I was doing this work late at night I may have made mistakes, also check for completeness. The only thing is that I have not list each block of verses with from whom the prayers are from and and which chapters, but if you follow the list given by Dinadythma prahbu, they appear in that order of the list.
