

## **Preface**

All the Glorifications in Srimad Bhagavtam are different from the normal prayers . Generally we see in the prayers is the description of the beautiful form , then a detailed account of the pastimes of the Lord and request from devotees for different blessings . The Glorifications in Bhagavatam apart from describing the form and Glories of Krsna it also include the principles of Krsna Consciousness to elevate the devotee following the footsteps of the personalities who glorify Krsna.

These prayers establish the strong relationship between devotee and Krsna and in that way to develop detachment and knowledge .All these prayers of devotees like Bhishma, Prahlada, Narada, Dhruva , Kuntidevi were all fearless and active in their duties. Their prayers need commentary and explanation to relish their beauty and devotion. This will also enhance our understanding of this ripened fruit of Vedic knowledge.
